

abirein[®]
for your health

**DISINFECTION ON THE SHIPS
THROUGH**

abirein[®]LIQUID

**Reliable, Effective, Economical, Environmentally friendly
and fully biologically degradable.**

**Without alcohol, acid, phosphate or tensides,
fragrance or dyestuff**

DISINFECTION ON CRUISING SHIPS USING ABIREIN[®]LIQUID+ CONCENTRATE

There is no comparable technology which could exceed the **disinfectant ABIREIN[®]LIQUID** in its versatility, effectiveness and economy.

This method of disinfection is ideal for cruising ships as it will keep the cost low.

ABIREIN[®]LIQUID disinfectant

To kill effectively bacteria, virus, fungi and alga dangerous to human life.

With out the use of other chemicals

ABIREIN[®]LIQUID is friendly to the environmentally and fully biologically degradable.

The product is in a dilution (already a dilution 1:500) with water not irritating to the skin, mucous membranes or eyes and could be safely used in swimming pools.

ABIREIN LIQUID kills bacteria or virus like:

Legionary disease, E. coli, Salmonella, Streptococcus, TBC, HBV Hepatitis etc.

Also multi resistant bacteria like EHEC and MSRA.

Disinfecting applications:

- Drinking water disinfection
- Disinfection following the seawater desalination.
- Pool water disinfection
- Whirl pool disinfection
- Warm water disinfection
- Surface disinfection of sanitary facilities
- Disinfecting bathrooms, toilets, urinals and saunas
- Eradicating bad stench / odour
- Disinfecting kitchen facilities
- In every area where hygiene is important
- Air conditioning disinfection

ABIREIN[®]LIQUID+ DISINFECTION CONCENTRATE can be diluted with water as required

ABIREIN[®]LIQUID+ CONCENTRATE can be diluted with WATER to any strength, depending on the application and the bacterial contamination.

For example a dilution of **1 litre ABIREIN[®]LIQUID+ CONCENTRATE to 1000 or 1500 litres of WATER** would be effective producing disinfected **DRINKING WATER.**
